SCHOOL

From the Principal's Desk

THE BEST FLOWER WON'T GROW IN THE WORST DIRT
BUT THE POOREST FLOWERS WILL THRIVE IN THE RICHEST LAND

The true significance of education lies in instilling in the students, a profound sense of purpose and joy. In this highly competitive world of today. Communication and interaction is gradually diminishing. Education has become a high mechanical process. Children explore and learn, assimilate facts and figures, exhibit the highest degree of perfection, but in the process lose the most precious gem of life enjoyment and happiness. The humane touch is missing. It is, thus, imperative that students be tended with love and care, during the tender years, enabling them to come to full bloom, in due time. From the safe and secure world of a nursery, a child's first step into the arena of school education is full of great apprehensions which need to be gradually removed through regular interaction and sensitive handling. The transformation, thus, of a hesitant child into a confident youngster, ready to face the challenges of life, is extremely gratifying can be equally fascinating. The youth of today dreams big, the canvas of opportunities being vast and varied. Focussed right, from the word go, they are in pursuit of excellence in academics, sports and overall growth of mind and body. There are no limits to human endeavour and one can certainly accomplish anything, that one sets ones heart, upon. The need of the hour is to give an inputs and motivation to surge ahead. It is here that the role of school and teacher assumes significant proportion. It is right education that prepares youth to indentify goals and make them he resolute and determined to achieve them. It is the ART OF GIVING that helps shape the destiny of the new generation and in turn, of the nation, at large.

We give of ourselves, when we give gift of the heart: love, kindness, sympathy, tolerance and forgiveness....

We give of ourselves, when we give gift of the heart: love, ideas, dreams, purposes, projects, poetry.....

We give of ourselves, when we give gift of the heart: prayer, vision, beauty, peace, faith.....

We give of ourselves, when we give gift of the heart: when we are minute builders of more abundant living for others.

With a tradition of leadership and innovation nearly half a decade long, the JBS Children Paradise School is prepared to seize this opportunity. Collectively, we have improved the lives of millions of young people. There may be a lot wrong in education, but has been a key part of what is right about education.

Career Point Gurukul is poised to make a genuine difference in the world. The tradition of innovation that has marked the school is as vibrant as ever. That we are located within the finest locations and a education hub of the country, gives us unrivald opportunities. Our students and faculty are unmatched. We are diverse in our outlook and our approach, beholden not to any ideology but to a fierce desire to discover and help implement what works. No other institution has this opportunity, but with opportunity comes responsibility. We must accept this responsibility and seize this moment.

With everyone's help, we can begin the next chapter in the life of an educational system that will continue to be, like no other. Together, we will learn to change the world. Thank you for your support.

Pravin Kumar
Principal (CP Gurukul)

From The Editor's Desk

Moderate Student + Moderate Anxiety = High Performance

OK, this one takes me by surprise. A large study showed that a moderate amount of anxiety in a student who tries mathematics helps that student to reach his or her potential. Is there a way we can instill MODERATE anxiety? Perhaps by posing challenging questions to our motivated students and let them struggle. I've seen it happen. As long as the support system is there to help, the students have confidence while struggling with the problems. Instilling the mindset of, what is learned during the process, instead of the final product being perfect, builds their confidence.

We're constantly told to relax and take it easy, but stress may actually help us to focus and succeed in life. Suppose you have an important presentation tomorrow but your heart is racing and your mind is serving up a steady stream of "what if's": What if I'm not fully prepared? What if it goes badly? You're running out time. The last thing you need is all this anxiety.

Actually, a little anxiety may be just what you need to focus on your efforts and perform at your peak, said by some Psychologists. Somewhere between checked out and freaked out lies an anxiety's sweet spot, some researchers say, a person is motivated to succeed yet not so anxious hence performance takes a dive. This moderate amount of anxiety keeps people on their toes, enables them to juggle between multiple tasks and puts them on high an alert for potential problems.

Mili Arora
(Academic Co-ordinator)

Dear Readers,

'To me, the greatest pleasure of writing is not what it's about, but the inner music the words make.' -Truman Capote.

In agreement with the above quote, I find writing as the most valuable literary expression. The inculcation of passion for creative thinking and writing amongst the students is one of the major objectives set by Career Point Gurukul School. 'Expressions' has been a step towards it and it has served as a great platform to vent out students' passion for writing and encourage original thinking within them.

Our student authors and faculties have put across some amazing pieces of writing displaying their creative thinking and writing skills. The works included in this edition are extremely simple but will surely provide an opportunity to peep into a child's and adults thought process and his or her axiomatic creative thinking. It is actually a lovely experience to see these enthusiastic writers voicing their feeling through stories, poems, jokes and initiating an adult role through various eye opening discussions. The publication of the school magazine included a lot of planning compounded with team work and we were lucky to have a team of motivated students who played a strong role in envisioning the layout of 'Expressions'.

I am thankful to all the blooming writers who have responded to my call and penned their ideas for the newsletter. I also acknowledge constant hard work of the student editors Ashish Bharadwaj, Shakambari Saxena, Varun Prakash, Naveen Paneri and Sakshi Singh who proved to be as catalysts in mobilising the students to write their views and efficiently edited the write ups. I would also like to extend my sincere thanks to our institution head Mr. Pravin Kumar for his constant support and guidance through the entire process of planning and publication of 'Expressions'.

Finally, from the entire team of 'Expressions' I wish all the readers a happy reading!

"Everybody is a genius. But if you judge a fish by its ability to climb a tree, it will spend its whole life believing that it is stupid"

Albert Einstein

LIVE NOW

*Flying high, higher than the stars,
Dreaming about another day so far.....
Missing the view passing by & aiming
Far above your start
Just thinking about the next day
Forgetting to live in the present
Ignoring the gift of today &
Making it fly away for a quest
Of a better tomorrow.
Knowing your limitations but determined
To break the barriers,
Still living for another day
That you know will never come,
Live in this moment don't live in the future
Cuz its fog never dies,
Chase the awesomeness of you wonderful life....*

TREES

*My dear trees,
We are dependent on you
You provide us with medicine,
So that we don't get any flu.
In the summers by the shadow
You keep us cool
You provide us with wood which acts as fuel
You are the one who keeps the ecological balance
If you were not with us,
We would be in tense.
My dear trees,
We are lucky to have you
We promise to care,
Because you have remained few*

Arnav Koul

BUTTERFLY

*Butterfly, Butterfly! Fly high, high
You look beautiful like the sky,
Many colours within you,
That's why we stare in you
The secret of colours within you,
Makes us happier at seeing you
Great inventions great thoughts
God has made in you.
The best of all things that we are
Made of gold or made of star
That's why we are here on earth
To look at you or stare at you.
Butterfly, Butterfly! Fly high, high
You look beautiful like the sky,*

Udit Pandey
class - VII

MY TOYS ARE MY LIFE

*I am a boy,
Just playing like a toy,
If a boy plays with a toy,
It makes the boy to feel a joy.
If I play with a toy
It would make me a brave boy.
If I cry with a toy
It would make me a saddest boy.
If my parents throw away from my toys,
I would cry in my deepest mind.
If I was a toy in my whole life,
Then my parents wouldn't be in entire life.
If I finish the poem while playing with my toy,
It would make me happy in my entire life.*

Success

PUNCTUALITY AND SUCCESS

Amar Singh
Faculty-Biology

Punctuality trains us to plan the time we need to complete a task. We can then perform our work correctly and efficiently. A person who respects time is careful with every minute of it.

A punctual person completes the given work within the specified time and is therefore a dependable person. We should be punctual not only in our work but also in our commitment to time given to someone. It is rude to keep another person waiting. It is not only waste of time but also spoils our impression on the person who has made to wait for us.

"Lack of punctuality is not only a sign of disrespect to others but also makes us miss great

JUST THINK

1. Before you die- give
2. Before you speak- listen
3. Before you write- think
4. Before you spend- save
5. Before you criticize- wait
6. Before you quit- try
7. Before you retire- work

HIGHS AND LOWS

They come and go
Make us feel high and low
This is how the time grows
When they come,
We welcome joyous
When they go
Is a sorrow to us?
But never have you felt bad
Rather you should be glad
That your life is normal
Neither you cry but we are adorable.
You are alone when you cry
There in no one to set us
Everyone looks when we fly
They try to deceive us
They come and go
Make us feel high and low
This is how the time grows.

OH! MY MOM

In this world's wild
I am still your child,
In sorrows longing for your leap,
To hug you and weep.
Although I am young,
But with innocence going,
Craving to come in your leap,
For a peaceful sleep.
Want to hold your hand,
To walk on the sand.
Yearn to be a butterfly,
And to get my success to sky.
I wish for your mercy and kind
To keep you always in my mind
"LOVE YOU MOM"

HOW DO LIQUID METAL SNOWFLAKES GROW?

Vipul Sharma
Chemistry Faculty

Electrochemical oxidation shapes liquid gallium-indium metal into fractal shapes

In a recent discovery it has been found that drops of liquid metal can be grown into snowflake shapes.

When a team of scientists from the North Carolina State University, US, tried to use a droplet of liquid gallium-indium as an electrode in an electrochemical cell, they observed something odd: within a few seconds, the metal starts to spread out into a snowflake-like shape. An unusual behaviour for a liquid that has the **largest surface tension** of any fluid and is therefore rarely inclined to change its shape.

Applying a moderate voltage, however, kicks off a reaction between the gallium alloy and the surrounding electrolyte, a solution of sodium hydroxide in water. The metal's surface becomes oxidized, which lowers its surface tension in the same way soap lowers the surface tension of water. As gravity spreads the metal out into a disc, disturbances on its surface break it up into individual 'petals'. As they grow, the petals break up into more branches, creating a fractal pattern.

The largest liquid metal snowflakes are around 20 times the size of the original droplet and form in less than half a minute. However, the researchers found that the effect only works in a narrow voltage window around 2V. At lower voltages, the droplet's surface doesn't oxidize enough to disturb its shape. If the voltages are too high, the surface oxide layer grows too thick and doesn't allow the droplet to spread and break up.

Liquid metals have been used as wheels for **miniaturized vehicles** and as **tiny actuators**. Being able to precisely control their shape could help design new types of soft electronics.

MANNERS

We say thank you,
We say please,
We never tease,
We don't argue, we don't beat around-the bush.
You should do everything with - concern,
And always wait for your turn.

Good manners are not hard - to learn
It's really easy when you find,
good manners mean,
To be just kind

Article Mathematics

Amazing facts:-

1. To know prime number, square it, add 17 & divide by 12. There will be a remainder of 6.
2. 2520 is the smallest number that can be exactly divided by all the numbers 1 to 10.
3. There are just four numbers (after 1) which are the sums of the cubes of their digits
 $153 = 1^3 + 5^3 + 3^3$
 $370 = 3^3 + 7^3 + 0^3$
 $371 = 3^3 + 7^3 + 1^3$
 $407 = 4^3 + 0^3 + 7^3$
4. The number 5 is pronounced as 'Ha' language in Thai language. 555 is also used by some as slang for 'HaHaHa'
5. Americans called mathematics 'math' arguing that 'mathematics' functions as a singular noun so 'math' should be singular too.

"I met one of my students yesterday. I asked him direction to the State Bank India. He told me, make a 299 degrees turn and walk for 290 meters, n subtend the angle of X using Pythagoras theorem and round it of two the nearest degree using $\tan X$. from that point, draw a parabolic curve and walk 342 meters on its major axis and bisect the straight road at an obtuse angle. That's where the bank is. And said at last sir now understand, what we felt when we were in school....."

Chetan Jain
Faculty Mathematics

Mom

She's the one who gives us life
She's the one who's called our dad's wife
She gives us a lot of love.
Her heart is pure as that of the colour of white dove.
She's the one who stays with us in every situation.
Either it's an exam or life's competition
She's the one, who thinks our best,
Never gets tired always work for us & never takes rest.

Saurabh Sidar
class - IX - B

She's the one who remains thirsty for us & gives us water.
She remains with us in every matter longer or shorter.
We shouldn't break her heart because she's very kind
Whenever we falter she never minds.

"She's no one else she's our mom & we should always try to make her feel proud".

'Sarve Bhavantu Sukhinah!'

The ideology which occurred in ancient India has been cherished by the worldly person that's why, they turned towards India. Behind this, the reason is that there were great efforts which were been done by our forefathers for the goodwill of our country. This is-'Simple living and high thinking', 'AtithiDevoBhav' (It means to welcome our guests to put all our efforts to serve them) and 'VasudhaivaKutumbkam' are the ground of it.

Now it is our duty to maintain it with our good attitude, dedication and devoted service towards our culture, to be humble not only to our guests but also our primary and secondary family members to avoid all types of differences in terms of caste, creed, sex or standard of living.

We should make such an effort by which our country becomes an ideal place for living in this world. It needs a lot of sacrifice to check our lustrous desire and forward ourselves towards services. To think that - 'Service to men is to service to God'.

We should never throw our liabilities over others but take responsibilities of other's liabilities. Then the miracle of 'SarveBhavantuSukhinah', will take place in our country. **ShubhamBhuyata.**

Mystery of Chemistry

What is this Chemistry!
Chemistry! I think this is a big mystery where Carbon is always produced by ash, which no one can ever catch. Where Oxygen is needed for burning, but it is very complicated for learning where Sodium is explosive with water, where aluminum is extracted from bauxite, and it is also very light. Where calcium with oxygen forms calcium and it is used as chalks to write Oxide where iron forms rust with air and moisture, and loses its entire luster.

Where Neon and argon are most stable and have atomic numbers 10th & 18th in the table where burning magnesium gives a dazzling light, seeing this can haunt our sight. But Chemistry is full of fun & joy, I will never say you Bye! Bye.

Soumya Verma
Class - VIII

Success Consciousness and Motivation

How many times have you started enthusiastically a weight loss program, began having a training course or started learning a foreign language, only to stop after a short while?

How many times have you intended to do something different, study a certain topic or start a certain project, but couldn't?

We need to understand that in order to accomplish anything you need a driving force, a hard push.

A wish is not strong enough to make you take an action. A wish is a weak desire and only a strong desire can drive you forward to act and accomplish aims and goals.

This driving force is "motivation". In order to get motivated, you need to know exactly what is that you want. Your goal should be clear, sharp and realistic.

Thinking often about the goal and accepting the idea that it can become true, would increase your motivation and your desire to achieve it.

It is easier to display motivation in connection with short term goals. When it comes to long-term goals, it is always possible to sustain the motivation for a longer time. This is why it is wiser to start with smaller goals and gaining experience with being motivated, you proceed to bigger goals.

Motivation has much to do with emotions and the imagination, which means that if you want to increase it, you have to work on your feelings and imagination.

Tips to increase you motivation

- " Think and analyze your desire to find out whether you really want to achieve it, and whether it is worth the effort and time.
- " Make your goals very clear, writing it down would help.
- " Think often about your goals or desire.
- " Visualize your goals as already accomplished and shut your mind to doubts and disbeliefs
- " Read books and articles about the subject of your goal.
- " Read about the people who have achieved success. This would inspire you to emulate them.
- " Think often about the benefits you will gain by achieving your goal, this will increase your desire and motivation.
- " Visualize how your life would be after getting what you wanted. Imagine how you would feel after achieving your goal.
- " Repeat positive affirmations such as, "I have desire and the inner strength to achieve my goal". Repeat this affirmation often with attention and belief.

"Start taking small steps towards your goalRIGHT NOW! ...don't want to miss the right opportunity and time.

"Motivation is the powerful engine that moves you towards success and accomplishment in every area of life".

"Motivation is the electrical power that activates the engine of success".

"Visualizing your desire as already accomplished, and enjoying the feeling of accomplishment awakens in you the energies that drive you to do whatever it takes to make your desire come true!"

Husain Umrethi

I Am Not Made For Losing

It is said by all
That future is tough
But if you work hard,
Nothing is rough

It's all upon you
How you are doing
In any field of life
How fast you are moving

Do hard work
And you will succeed
Love what you do and
At the top it will lead

Be not afraid of obstacles
That will come in your way
Don't take a wrong advice
Of the people what they say

Stick to your Principle
And keep on moving
Don't see back because
You are not made for losing.

Arun Kumar
Class - VI

Life and challenges

When things go wrong, as they
sometimes will, when the roads you are
trudging seems all uphill when funds are
low and the debts are high. And you
want to smile but you have to sigh.
When care is pressing you down a bit-
rest if you must, but don't you quit -
Life is a queer with its twist and turns as
everyone of us sometimes learns.
And many a failure turns about when
the might have won had he stuck it out.
Don't give up though the pace seems slow you may succeed
with another blow.
After the goal is nearer than
It seems to be faint and faltering man;
After the struggler has given up
When he might have captured the victor's cup and he
learned to late when the night came down
How close he was to the golden crown.

Eshaan Boruah

Self Control

There are a few negative virtues found in human beings which make them tread on a wrong path. People, who have control on their senses and brain, never get diverted from the path of righteousness. Anger is also called short-time madness and it may ruin one's life in no time. Therefore we should not fall prey to anger sometimes; we become angry when someone criticizes us for our mistakes and does something wrong that could not be cured. Therefore whenever someone criticizes us we should have a self perception that we should rectify our mistakes. Similarly greed, hatred, etc. are out enemies that may ruin our happy life. If we can control our anger, hatred, greed and temptation, we would certainly achieve great success.
"People will forget what you said; People will forget what you did. But People will never forget how you made them feel."

ईश्वर

मैं दूँढ़ता तुझे था। जब मंदिर और मस्जिद में,
करता था तू वास लोगों के हृदय में।
देखने कि चाह आई जब मेरे मन में,
दिखा तब तू मुझे इंसानों में।।

समझा जब मैं, तेरी माया,
अपने आप को तेरे चरणों में पाया।
रची गई है तेरे द्वारा ये दुनिया,
तूने ही दी है ये सारी खुशियाँ।

समझता था मैं, इंसान है तेरा गुलाम,
लेकिन तू निकला अपने भक्तों का गुलाम।
करता हूँ अब मैं तुझे प्रणाम,
अब करता रहूँगा, तेरा ही गुणगान।।

हूँ मैं सुनकर यह हैरान,
हे कितना तू बलवान।
इससे पहले था मैं एक आम इंसान,
तूने बना दिया मुझे, एक श्रेष्ठ इंसान।।

हे ईश्वर! करता हूँ मैं तुझे नमस्कार,
नहीं कोई भूलेगा तेरा ये उपकार।

हिन्दी भाषा

प्रकृति की पहली ध्वनि 'ऊँ' है।
मेरी हिन्दी भाषा भी, इसी 'की' देन है।

देवनागरी लिपि है इसकी देवों की कलम से उपजी
बांगला, गुजराती, भोजपुरी, डोगरी, पंजाबी हिन्दी ही है इन सबकी जननी।
प्रकृति की हर इक चीज़ अपने में सम्पूर्ण है
मेरी हिन्दी भाषा भी अपने में सम्पूर्ण है
जो बोलते है वही लिखते हैं
मन के भाव सही उभरते हैं

सीताराम शर्मा
हिंदी विभाग (गुरुकुल)

हिन्दी भाषा ही तुम्हें, प्रकृति के समीप ले जाएगी।
मन की वृद्धि), तन की वृद्धि), सहायक बन जाएगी।
कुछ हवा चली है ऐसी यहाँ देखो।
कहते है इस मातृ भाषा को बदल डालो।।

बदल सको क्या तुम इस मातृ भाषा को ?
बदल सको क्या तुम अपनी माता को ?
मातृ भाषा का क्यों तुम बदलाव करो
देवों की भाषा का क्यों तुम तिरस्कार करो

बदल सको तो तुम अपनी इस सोच को बदल डालो
अपनी मातृभाषा का तुम दिल से सम्मान करो
हिन्दी है भाषाओं की जननी आओ हम इस पर गर्व करें
हिन्दी है राष्ट्र भाषा, आओ हम सब इसका सम्मान करें।

प्रेरक-प्रसंग

सौ का नोट

एक अँधा व्यक्ति रोज शाम को सड़क के किनारे खड़े होकर भीख मँगवा करता था। जो थोड़े बहुत पैसे मिल जाते उन्हीं से अपनी गुजर-बसर किया करता था। एक शाम वहाँ से एक बहुत धनवान आदमी गुजरा। उसने उस अंधे व्यक्ति को देखा और उसे देखकर दया आई और सौ रुपये का नोट उसके हाथ में रखकर आगे की ओर चल दिया। उस अंधे आदमी ने नोट को खोलकर देखा समझा कि किसी आदमी ने उसके साथ ठोकेली भरा मजाक किया है क्योंकि उसने सोचा कि अब तक उसे सिर्फ 5 रुपये तक के ही नोट मिला करते थे जो कि हाथ में पकड़ने पर सौ की नोट की अपेक्षा वह बहुत छोटा लगता था। और उसे लगा कि किसी ने सिर्फ कागज का टुकड़ा उसके हाथ में थमा दिया है और उसने नोट को दुःखी मन से ज़मीन पर फेंक दिया। एक सज्जन पुरुष जो वहीं खड़े यह दृश्य देख रहे थे, उन्होंने नोट को उठाया और अंधे व्यक्ति को देते हुए कहा - “यह सौ रुपये का नोट है।” तब वह बहुत प्रसन्न हुआ और उसने अपनी आवश्यकताएँ पूरी की।

कपिल देव सोनी
विद्यालय सहायक, गुरुकुल

इस कहानी से हमें यही शिक्षा मिलती है। कि ज्ञानचक्षुओं के अभाव में हम सब भी भगवान के अपार दान को देखकर यह समझ नहीं पाते और हमेशा यही कहते हैं कि हमारे पास कुछ नहीं है, हमें कुछ नहीं मिला, हम साधनहीन हैं पर यदि हमें जो नहीं मिला उन सबकी शिकायत करना छोड़कर जो मिला है उसकी महत्ता को समझें तो हमें मालूम पड़ेगा कि जो हम सबको मिला है वो कम नहीं अद्भुत है।

गुलाब

देखते हो तुम उसे, पर दर्द उसका दिखता नहीं,
उजाड़ कर उसको तुम सजा देते हो घरबार में, यह तुम्हें पता नहीं।

हवा में जब झुकता है वो बन्द कर देते हो किताब में
तोड़ कर उसको तुम दे देते हो एक फरियाद में।

जिन्दगी छीन कर जिन्दगी की दुआ करते हो,
तुम ऐसे ही हर रोज प्यार को बदनाम करते हो

बदलो इस सोच को आज से ही हमेशा के लिए,
इंसान के नाते ना सही तो एक गुलाब के लिए।

तो एक गुलाब के लिए.....

सच्चाई शान है।
पहचान हैं,
अतिथि जिसके भगवान हैं,
हिमालय जिसकी शान हैं।
जहाँ गाँधी, सुभाष महान हैं,
क्षमाशीलता जिनकी कमान है,
शांति जिसकी शान है।
जन-मन-गण जिसका राष्ट्रीय गान है।
जहाँ लाखों शहीद कुर्बान हैं,
जिसके ध्वज, बन्ने और किसान हैं।
आहिंसा और एकता जिसको जान है,
जहाँ गु और महावीर का जन्मस्थान है।
मुझे इस पर जन्म लेना अभिमान है,
यह मेरा हिन्दुस्तान है।

भारत का विकास

लहरा रहा जो सीना ताने है,
तिरंगा हमारी शान,
आजादी की खुली हवा में,
वीरों का बलिदान है।
खुश है आज किसान हमारा,
सपने हो रहे पूरे सारे,
चली विकास की लहर है ऐसे,
क्या गाँव शहर, क्या गलियारे।
चल पड़े हैं प्रगति पथ पर,
अब ना देखेंगे मुड़ के,
बढ़ाएंगे समाज को आगे,
जन-जन से जुड़ के।
छेड़ेंगे ना कसर शिक्षा और सुरक्षा में,
हमने खाई है कसम,
आ रही मुस्कान गरीबों के चेहरों पर
उम्मीदों पर खरे उतर रहे हैं हम।

उज्जल कलिता
कक्षा - 8

भारत की पहचान

भारत जमीन का टुकड़ा नहीं, जीता जागता राष्ट्रपुरुष है।
हिमालय मस्तक है, कश्मीर किरीट है, पंजाब और बंगाल हैं दो विशाल कंधे।
पूर्वी और पश्चिमी घाट के रूप में, है दो विशाल जंघाएँ।
कन्याकुमारी चरण हैं इसके, जिसके पग पछारे सागर।
यह चन्दन की भूमि है, अभिनन्दन की भूमि है, यह तर्पण की भूमि है, यह अर्पण की भूमि है।
इसका कंकर-कंकर शंकर है, इसका बिन्दु-बिन्दु गंगाजल है।
हम जियेंगे तो इसके लिए, मरेंगे तो इसके लिए।

बदलाव

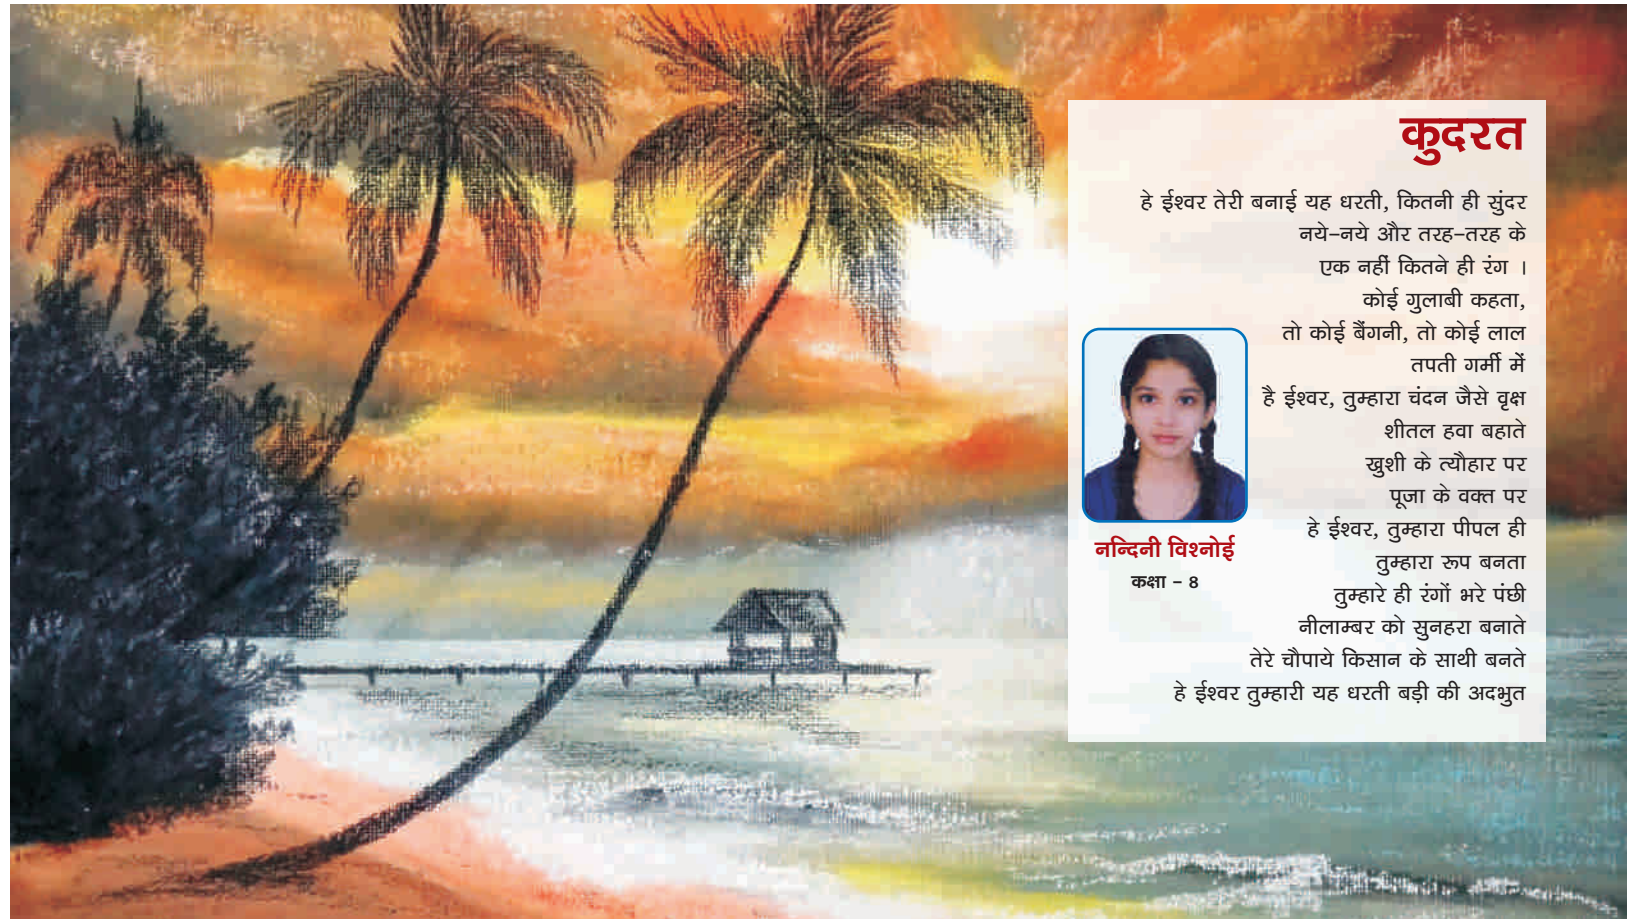

जिन्दगी में बहुत सारे अवसर ऐसे आते हैं जब हम बुरे हालात का सामना कर रहे होते हैं और सोचते हैं कि क्या किया जा सकता है क्यों कि इतनी जल्दी तो सब कुछ बदलना संभव नहीं है और क्या पता मेरा ये छोट सा बदलाव कुछ क्रांति लेकर आएगा या नहीं लेकिन मैं आपको बता दूँ हर चीज या बदलाव की शुरुआत बहुत ही बेसिक ढंग से होती है। कई बार तो सफलता हमसे बस थोड़े ही कदम दूर होती है कि हम हार मान लेते हैं जबकि अपनी क्षमताओं पर भरोसा रख कर किया जाने वाला कोई भी बदलाव छोट नहीं होता और वो हमारी जिन्दगी में एक नींव का पत्थर भी साबित हो सकता है। चलिए एक कहानी पढ़ते हैं इसके द्वारा समझने में आसानी होगी कि छोटा बदलाव किस कदर महत्वपूर्ण है।

एक लड़का सुबह-सुबह दौड़ने को जाया करता था। आते-जाते वह एक बूढ़ी महिला को देखता था। वो बूढ़ी महिला तालाब के किनारे छोटे-छोटे कछुओं की पीठ को साफ किया करती थी। एक दिन उसने इसके पीछे का कारण जानने की सोची। वो लड़का महिला के पास गया और उसका अभिवादन कर बोला 'नमस्ते आँटी! मैं आपको हमेशा इन कछुओं की पीठ साफ करते हुए देखता हूँ, आप ऐसा किस वजह से करते हो? महिला ने उस मासूम से लड़के को देखा और इस पर लड़के को जवाब दिया 'मैं हर रविवार यहाँ आती हूँ और इन छोटे-छोटे कछुओं की पीठ साफ करते हुए सुखशांति का अनुभव लेती हूँ। क्यों कि इनकी पीठ पर जो कवच होता है उस पर कचरा जमा हो जाने की वजह से इनकी गर्मी पैदा करने की क्षमता कम हो जाती है इसलिए ये कछुए तैरने में मुश्किल का सामना करते हैं। कुछ समय बाद तक अगर ऐसा ही रहे तो ये कवच भी कमजोर हो जाते हैं, इसलिए कवच को साफ करती हूँ। यह सुन कर लड़का बड़ा हैरान था। उसने फिर एक जाना पहचाना सा सवाल किया और बोला 'बेशक आप बहुत अच्छा काम कर रहे हैं लेकिन फिर भी आँटी एक बात सोचिए इन जैसे कितने कछुए हैं जो इनसे भी बुरी हालत में हैं जब कि आप सभी के लिए ये नहीं कर सकते हो तो उनका क्या क्यों कि आपके अकेले के बदलने से तो कोई बड़ा बदलाव नहीं आएगा न!

महिला ने बड़ा ही संक्षिप्त लेकिन असरदार जवाब दिया कि भले ही मेरे इस कर्म से दुनिया में कोई बड़ा बदलाव नहीं आएगा लेकिन सोचो इस एक कछुए की जिन्दगी में तो बदलाव आएगा ही न, तो क्यों न हम छोटे बदलाव से ही शुरुआत करें।

कुदरत

हे ईश्वर तेरी बनाई यह धरती, कितनी ही सुंदर
नये-नये और तरह-तरह के
एक नहीं कितने ही रंग ।

नन्दिनी विश्नोई
कक्षा - 8

कोई गुलाबी कहता,
तो कोई बैंगनी, तो कोई लाल
तपती गर्मी में
हे ईश्वर, तुम्हारा चंदन जैसे वृक्ष
शीतल हवा बहाते
खुशी के त्यौहार पर
पूजा के वक्त पर
हे ईश्वर, तुम्हारा पीपल ही
तुम्हारा रूप बनता
तुम्हारे ही रंगों भरे पंछी
नीलाम्बर को सुनहरा बनाते
तेरे चौपाये किसान के साथी बनते
हे ईश्वर तुम्हारी यह धरती बड़ी की अदभुत

बचपन की याद

बार-बार आती है मुझको, मधुर याद, मेरे बचपन की।
कहाँ गया वो बचपन मेरा, जो था मेरी शरारतों से भरा।
खेलता-कूदता मिट्टी में, ये सब अब हम भूल गए।
कब आएगा वो बचपन वापस लौटकर, जो गया था मुझे कितने समय पहले छेड़कर।
था उन दोस्तों का साथ, जो शायद नहीं हैं अब मेरे पास।
अब दिल में है सिर्फ कुछ याद मेरे घर-आँगन की।
बार-बार आती है मुझको, मधुर याद मेरे बचपन की।
कहाँ चले गए वह दिन वह दिन जब हमको,
थी नहीं कोई फिकर, वह दिन जो हम खेल-कूद
के बिता देते, वह दिन जब हम खुश होते।
कहाँ चली गई वे रातें, वह रातें जब हम खुशहाली फैलाते।
वह रातें हम बिना दर सो जाते।

पेड़ की पुकार

रो-रोकर पुकार रहा हूँ, हमें जमीं से मत उखाड़ो।
खतसाव से भीग गया हूँ मैं, कुल्हाड़ी अब मत मारो।
आसमां के बादल से पूछो, मुझको कैसे पाला है।
हर मौसम में सींचा हमको, मिट्टी-करकट झाड़ा है।
उन मंद हवाओं से पूछो, जोझूला हमें झुलाया है।
पल-पल मेरा ख्याल रखा है, अंकुर तभी उगाया है।
तुम सूखे इस उपवन में, पेड़ों का एक बाग लगा लो।
रो-रोकर पुकार रहा हूँ, हमें जमीं से मत उखाड़ो।
इस धरा की सुंदर छाया, हम पेड़ों से बनी हुई है।
मधुर-मधुर ये मंद हवाएँ, अमृत बन कर ये चली हुई हैं।
हमीं से नाता है जीवों का, जो धरा पर आर्येंगे।
हमीं से रिश्ता है जन-जन का, जो इस धरा से जाएंगे।
शाखाएँ आधी तूफानों में टूटी, ढूँढ आँख में अब मत डालो।
रो-रोकर अब पुकार रहा हूँ, हमें जमीं से मत उखाड़ो।
हमीं कराते सब प्राणी को, अमृत का रसपान।
हमीं से बनती कितनी औषधि। नई पनपती जान,
कितने फल-फूल हम देते, फिर भी बने हो अनजान।
लिए कुल्हाड़ी ताक रहे हो, उत्तर दो क्यों बेजान खड़े हो।
हमीं से सुन्दर जीवन मिलता, बुरी नजर मुझ पर मत डालो,
रो-रोकर पुकार रहा हूँ, हमें जमीं से मत उखाड़ो।
अगर जमीं पर नहीं रहे हम, जीना दूभर हो जाएगा।
ब्राहि-ब्राहि जन-जन में होगी, हाहाकार भी मच जाएगा।
तब पछताओगे तुम बन्दे, हमने इन्हें बिगाड़ा है।
हमीं से घर-घर सब मिलता है, जो खड़ा हुआ किवाड़ा है।
गली-गली में पेड़ लगाओ, हर प्राणी में आस जगा दो।
रो-रोकर पुकार रहा हूँ, हमें जमीं से मत उखाड़ो।

फिर एक पौधा लगाना है

आ गया सावन, फिर एक पौधा लगाना है।
देखभाल कर, उसकी, उसको वृक्ष बनाना है।
संगी, साथियों, सबको, उसकी महत्ता बताना है।
आ गया सावन, फिर एक पौधा लगाना है।।

निखिल भूतरा
कक्षा - 9 (अ)

उससे मिलेगी छाया हमको और मिलेगा बसेरा चिड़ियों को
फल देगा हमको और देगा भोजन चौपायों को।
प्राणवायु लेकर उससे जीवन को चलाना है।
आ गया सावन, फिर एक पौधा लगाना है।।

करके हरियाली इस बंजर सी भूमि पर।
लाता मुस्कान वह अपने चेहरों पर।
एक मृत से बीज को तुम्हें जिंदगी में लाना है।
आ गया सावन, फिर एक पौधा लगाना है।।

माँ

हमारे हर मर्ज की दवा होती है।
कभी डाँटती है, तो कभी गले से....
लगा लेती है माँ.....

खुद चाहे कितनी थकी है,
हमें देखकर अपनी थकान
भूल जाती है माँ.....

अपने आँचल में छुपा कर
हर मुश्किल से बचाती है माँ.....

जिसकी ममता के आगे,
भगवान भी झुक जाते हैं
ऐसी है हर माँ.....

ममता की मूर्ति - “माँ”

जिसके आँचल में हम पलते हैं,
जिसके आँचल में हम सँवरते हैं
सारा दिन जिसकी लोरियाँ सुनते हैं, और
जीवन का आनंद जिसके गोद में लेते हैं।
ममता की उसी मूर्ति को तो हम माँ कहते हैं।

जिसके लिए हम सूरज होते हैं,
जिसके लिए हम चाँद होते हैं,
जिसके दीप-तारे होते हैं, और
जिसके जीवन के हम सहारे होते हैं
ममता की उसी मूर्ति को तो हम माँ कहते हैं।

जिसके संस्कारों पर हम चलते हैं,
जिसके सामने हम रुकते और मचलते हैं,
बचपन में जिसके बुलाने पर नखरे करते हैं, और
आज जिसके गोद के लिए तरसते हैं,
ममता की उसी मूर्ति को हम माँ कहते हैं।

जिसकी ममता के छाँव में हम निर्भय होकर रहते हैं,
आज जिसके मोह के लिए हम तरसते हैं,
जिसे जिन्दगी में हम ईश्वर से ऊपर का दर्जा देते हैं और
जिसकी मोह-माया के आगे स्वयं खुदा भी झुकते हैं,
ममता की उसी मूर्ति को हम माँ कहते हैं।

नया आगाज

आज समय की माँग पर
आगाज नया इक होगा,
निरन्तर योग्यता के निर्णय से
परिणाम आँकलन होगा।

परिवर्तन नियम जीवन का,
नियम अब नया बनेगा
अब परिणामों के भय से,
नहीं बालक कोई डरेगा।

निरन्तर योग्यता के निर्णय से
परिणाम आँकलन होगा।

बदले शिक्षा का स्वरूप
नई खिले आशा की धूप
अब किसी कोमल में मन पर
कोई बोझ न होगा।

निरन्तर योग्यता के निर्णय से
परिणाम आँकलन होगा।
